Winter 2015

best wishes for 2015

and another
great year
for your

Smile!

THANK YOU FOR ALL YOUR REFERRALS. WE APPRECIATE THEM!

Bling! I Grin, Smile, & Laugh!

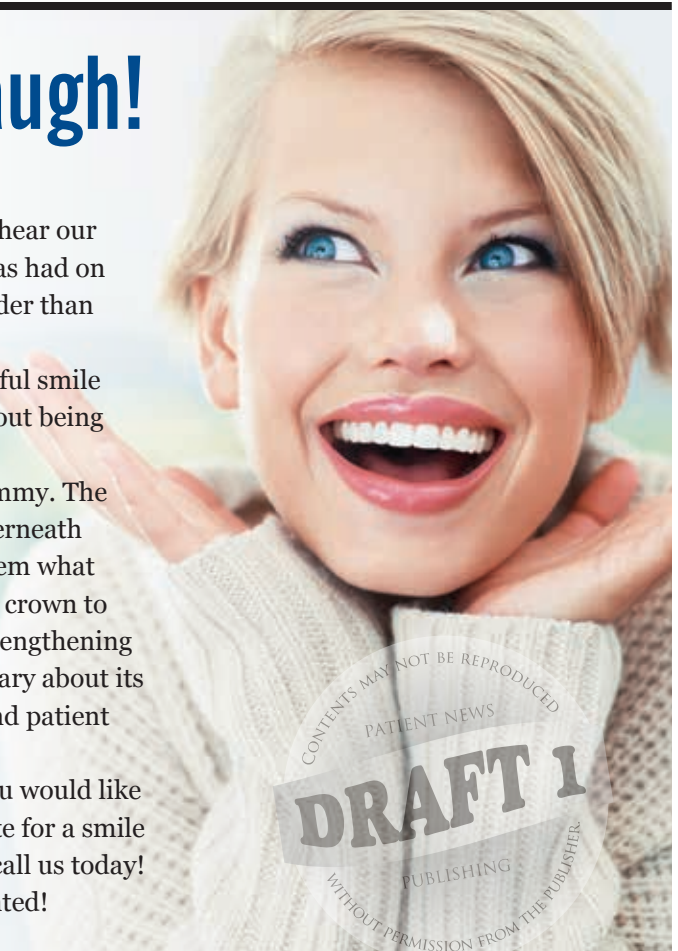

I don't hesitate to smile anymore!

Does this sound like you? If not ... give us a call! We often hear our clients express their delight with the dramatic change dentistry has had on their lives. But believe us when we say that their smiles speak louder than their words!

Our patients have come to us knowing how important a beautiful smile can be, and they want to be able to smile and grin and laugh without being self-conscious of their teeth.

Take for example patients whose teeth are too small or too gummy. The truth is that these patients always had beautiful teeth buried underneath excess gum tissue. Crown lengthening, or gum sculpting, gives them what they want: a beautiful smile simply by exposing more of the tooth crown to achieve a more esthetic tooth shape and tooth-gum ratio. Crown lengthening has become a routine procedure for us, but there is nothing ordinary about its remarkable cosmetic and functional improvements ... often beyond patient expectations!

Give yourself the gift of a beautiful smile. Think about what you would like to see when you look in the mirror. You may be a perfect candidate for a smile adjustment that will deliver bold results and easy, bright smiles! call us today! That call may be the first step toward the smile you've always wanted!
